**State Board approves contractor licenses**

CHARLESTON -- West Virginia's manufactured housing regulators approved two license applications on Tuesday.

The West Virginia Manufactured Housing Construction and Safety Standards Board granted contractor licenses to Ronald J. Clark of Waverly, doing business as Clark Backhoe Service; and Jackie L. Canterbury of Uneeda, doing business as Uneeda Mobile Home Repair.

The panel also approved a recovery fund submittal for between \$1,000 and \$2,500 for work on the home of Traci Morsi of Pipestem. Fleetwood Homes of Virginia Inc. was her manufacturer.

The fund, voluntarily set up by the industry, repairs or completes work on homes when the manufacturer has gone out of business.
