### **State Board approves manufacturer for business**

The state's manufactured housing regulatory board on Tuesday approved a license for a manufacturing plant in North Carolina.

The West Virginia Manufactured Housing Construction and Safety Standards Board OK'd the license for Cavalier Home Builders, LLC, of Nashville, NC.

The State Board also approved two claims to be submitted to the fund voluntarily established by the industry to pay damages when a company ceases to exist before it completes work on a home. The payments are not funded by taxpayer dollars.

Affected were Roger Tallarito of Weston and Dottie Hager and Stella Brogan of Sod.
